### 5. FIRE FIGHTING MEASURES

**General Fire Hazards** : No unusual fire or explosion hazards noted.

**Suitable (and unsuitable) extinguishing media**

**Suitable extinguishing media**

: CO2, dry chemical, foam, water spray, water fog.

**Unsuitable extinguishing media**

: Do not use water jet as an extinguisher, as this will spread the fire.

**Specific hazards arising from the chemical**

: A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. See section 10 for additional information.

**Special protective equipment and precautions for firefighters**

**Special firefighting procedures**

: No data available.

**Special protective equipment for fire-fighters**

: Recommend wearing self-contained breathing apparatus.

---

### 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

: No data available.

**Methods and material for containment and cleaning up**

: Dike far ahead of larger spill for later recovery and disposal. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material.

**Environmental Precautions**

: Avoid release to the environment. Do not contaminate water sources or sewer. Environmental manager must be informed of all major spillages. Prevent further leakage or spillage if safe to do so.

---

### 7. HANDLING AND STORAGE

**Precautions for safe handling**

: Do not breathe thermal decomposition products.  
Observe good industrial hygiene practices. Provide adequate ventilation.  
Wear appropriate personal protective equipment. Keep away from heat/sparks/open flames/hot surfaces. No smoking.

**Maximum Handling Temperature**

: Not determined.

**Conditions for safe storage, including any incompatibilities**

: Store away from incompatible materials. See section 10 for incompatible materials.

**Maximum Storage Temperature**

: Not determined.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Control Parameters

##### Occupational Exposure Limits

: None of the components have assigned exposure limits.

##### Appropriate engineering controls

: Mechanical ventilation or local exhaust ventilation may be required. No special requirements under ordinary conditions of use and with adequate ventilation.

##### Individual protection measures, such as personal protective equipment

**General information** : Use personal protective equipment as required.

**Eye/face protection** : If contact is likely, safety glasses with side shields are recommended.

##### Skin Protection

**Hand Protection** : Suitable gloves can be recommended by the glove supplier. Consult clothing/glove manufacturer to determine appropriate type of glove for given situation. Gloves should always be inspected before each use and discarded if they show tears, pinholes, or signs of wear.

**Other** : No data available.

**Respiratory Protection** : Consult with an industrial hygienist to determine the appropriate respiratory protection for your specific use of this material. A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator.

**Hygiene measures** : Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminants. Discard contaminated footwear that cannot be cleaned.
